

Radcliffe School, Milton Keynes

Client: The Radcliffe School

Project: Education

Scale: New Sports Hall and School Extension and All-weather Sports Pitches

Services: Strategic Planning Advice, Planning, Community Consultation, EIA, Sustainability and S106

“Supporting the continuing development of our school White Peak Planning have responded promptly to unique and shifting challenges whilst maintaining a strategic focus. Overcoming these hurdles has enabled the school to deliver valuable and exciting new facilities for the benefit of pupils and the local community.”

**Jason Falkner, Business Manager
The Radcliffe School**

Having previously undertaken a role that included providing planning and sustainability advice and EIA co-ordination, and successfully achieving outline planning permission, White Peak Planning was retained as planning advisor to The Radcliffe School for the successful delivery of new all-weather sports pitches and sports hall. We continue to support the development of the school extensions.

There have been a number of challenges with the scheme, specifically due to its location adjacent to a new residential area. The all-weather pitches are located close to new residential dwellings and therefore, it has been necessary to take into account potential impacts relating to lighting, noise and community use.

The new indoor sports hall has now been delivered providing high quality indoor facilities. The extension to the school has been designed to allow the continued use of the school.

We have planned and undertaken a comprehensive Community Consultation exercise, including Member Briefings, workshops with officers, Public Exhibitions and liaison with Sport England, British Cycling and local cycle groups.

As pupil demand for school places in Milton Keynes grows this project will continue to provide unique planning and technical challenges.
